

Cost standards indexation 2018

C684 *A guide to cost standards for dredging equipment 2009* gives the replacement value ex-works, yard or importer and exclusive of VAT, in Europe on 1 January 2009 for several types of dredging equipment. The values given in this publication have now been indexed as per 16 April 2018.

As there is no specific European index for ship building and/or hull structures available, IADC has assessed the indexation 2018 using the following Eurostat indices:

- C2511 (manufacture of metal structures and part of structures) for hull steel.
- C242 (manufacture of tubes, pipes, hollow profiles and related fittings, of steel) for steel pipelines.
- C2211 (manufacture of rubber tyres and tubes, retreading and rebuilding of rubber tyres) for rubber pipelines and pressure hoses.
- C2811 (manufacture of engines and turbines, except aircraft, vehicle and cycle engines).
- C2813 (manufacture of other pumps and compressors).

The assessed indices that are shown in the table are all based on the appropriate weighted combinations of last years' Eurostat indices.
